Control Panel

Shape Your Data

Filtering

The drop-down boxes to the right allow you to select one or more elements to filter the current query.

When multiple items are selected, they are combined in the filter. For longer lists, a scroll bar will appear to assist with navigation

Carrier & Company Select-

Select Carrier Group and Statewide Data. Company Allows specific companies to be selected from a carrier group.

Geographic Filters-

Select State, Region, County, and 3-Digit Zip Code for your data

Class, Industry and Hazard Group Filters- Select Filters based on Class, Industry Group, and Hazard Group

Premium & Loss Filters- Select Filters Relevant to Premium and Loss Data. For loss data, Policy Year can also be chosen here.

Use these icons to **Enable/Disable Applicable Filters**

Premium Measures- Select Measures Relevant to Premium Data.

Loss Measures- Select Measures Relevant to Loss Data.

Links to Market and Claim Insights Dashboards- To further investigate your data using the WorkComp 360 Toolkit.

User Guide- Link to full WorkComp360 User Guide

Run Button- Click this button to run your query

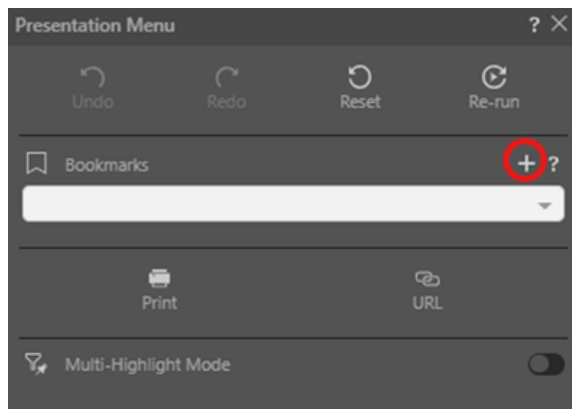

Bookmarking Queries

→ Set Custom Queries in Seconds

- 1 Open the Hamburger Menu Icon from the top right of the screen

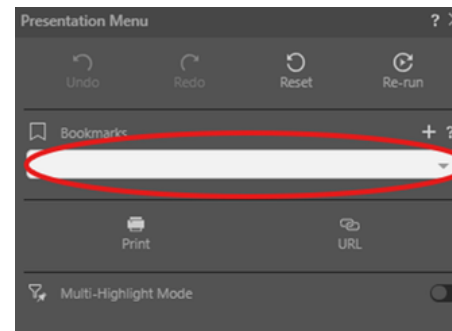

- 2 Select the '+' symbol in the bookmarks section of the Hamburger Menu. This will add your current filter selections to a new bookmark:

- 3 To select an existing bookmark, a user can either:

Select the bookmark bar in the Hamburger Menu

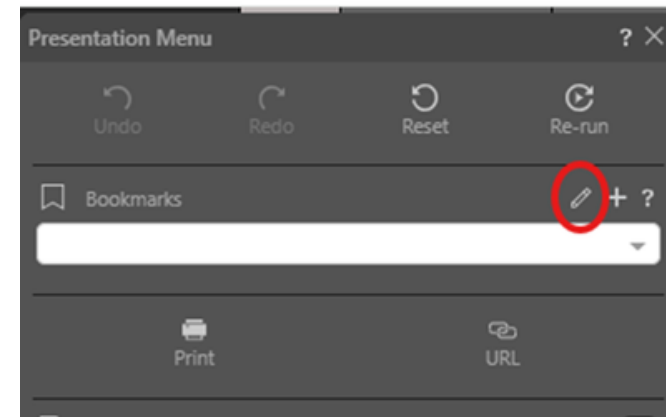

OR

Click the bookmark icon in the top right corner

- 4 To set a custom name for a bookmark, select the Pencil Icon next to the '+' icon. This opens a menu with an 'Edit' option.

NOTE: The Pencil Icon will only appear once you have at least one bookmark saved.

Query Operations

This allows users to sort and filter the data. It also allows users to create total rows and pivot the data.

Data Interactions

This allows users to Swap, Add, or Remove Columns from the Tabular Data.

Pro Tip:

Select the desired column header with a left-click first to ensure the right-click changes affect the intended column
